

I listen to KLOVE the only station in my area that plays Christian music that I can get in my home and car. It is encouraging and uplifting and I love that there are people listening all over to the same station(including my parents sometimes when they travel and me anywhere I travel!). Many people in my area listen...we would be discouraged daily without KLOVE. It is great for my family and friends to have access to great music and the uplifting word of God daily...it makes my day better. My kids love KLOVE, the music and people they have on. I also like the fact that I do not have to worry about what my kids are hearing! Please do not let Low Power FM stations take over KLOVE. Thank you
